TRANSMITTAL OF THE OPERABLE UNIT 6 FINAL RFI/RI REPORT - AMP-026-96

February 21, 1996

96-RM-ER-0026-KH

Discussion and/or Comments:

Enclosed are fourteen (14) copies of the Operable Unit (OU) 6 Final RFI/RI Report. This transmittal meets the Interagency Agreement (IAG) Table VI milestone for the OU 6 Final RFI/RI Report, currently scheduled for February 21, 1996. Please request that those who received the Draft Final version insert Plates 3.5-1, 3.5-2, 3.5-3, and 5.5-2 along with the electronic disks containing Appendices D1- D5 and D9 into the Final version. Of the fourteen copies, ten are complete sets for those who did not receive the Draft Final report. There is one complete set for Kaiser-Hill.

Please notify the Department of Energy, Rocky Flats Field Office (DOE/RFFO) that Appendix F, the Ecological Risk Assessment, is not included in this Final Report because comments were not received soon enough to include in this report. The Ecological Risk Assessment for Walnut Creek and Woman Creek is summarized in the OU 6 RFI/RI but will be provided in the OU 5 Final RFI/RI Report.

Also attached are the Final Response to Comments to the Environmental Protection Agency and the Colorado Department of Public Health and Environment comments.

If you have any questions, please contact Neil Holsteen of my staff at extension 4058.
